

Global Price Increase

Water Soluble Polymer

Andrézieux, January 6, 2017

Key raw material costs in Europe, China and the US continue to rise because demand is increasing while supply is constrained due to unexpected outages.

This imbalance at a time of rising oil prices will force SNF to increase our selling prices between 5% and 9% in Quarter 1 of 2017.

About SNF

SNF is the global leader in the production of polyacrylamide, polyamine and polyDADMAC. Our products are sold directly to the Oil and Gas, Municipal and Mining industries and via our distributor network to high service markets.

SNF currently operate large production plants in:

- Europe (Andrézieux France, Teesside UK),
- China (Taixing, Rudong),
- United States (Riceboro GA, Plaquemine LA, Pearlington LA),
- India (Vizag),
- Korea (Ulsan).

Four large new plants are under development:

- Russia (Saratov),
- India (Gandhidham),
- Brazil (Camacari),
- France (Dunkerker).

Global headquarters are in Andrézieux France together with central research and integrated engineering.
